Attached is a manuscript from Kip Hawley, former D/TSA. There are several references to FBI ops and procedures which need to be reviewed to determine if they can be released. Appreciate an expedited review if possible. We just received it last week .

FYI. The manuscript was delayed in transmission to us by several months through no fault of Mr. Hawley.

Sorry for the quick turnaround request.

The manuscript draft is attached in two documents. I am sending the p/w separately. It will be important in your review to know that I will have an Author's Note with language saying that the Z character is based on a real person but specific actions and details have been fictionalized to protect sensitive information. I am very open to make changes to keep on the safe side of the Classified line. I am totally available to your team should you wish to discuss. I am in California, cell phone: [REDACTED]
